## PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Developer(MERN) pursuing an HNDIT at SLIATE, Gampaha. Skilled in MERN stack, Node.js, and Flutter, with experience in backend development, REST API design, and database management. Proven ability to build scalable, user-focused applications through hands-on internship experience.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, JAVA (basic), HTML, CSS
**Frontend:** React.js, Next.js, Tailwind CSS, Flutter
**Backend:** Node.js, Express.js
**Database:** MongoDB, PostgreSQL
**Tools:** GitHub, Postman, VS Code, Figma
**Other:** REST APIs, JWT Authentication, MVC Architecture

## PROJECTS

**DJ Client Web Application** (*MERN Stack – Full-stack Web Application)*

- Developed a full-stack booking system using React.js, Node.js, and MongoDB
- Implemented JWT authentication and role-based access (Admin & Client)
- Built admin dashboard for managing bookings and availability
- Integrated payment gateway (Stripe)
- Designed responsive UI using Tailwind CSS
- Deployed frontend on Vercel and backend on Render

**Portfolio Website**
*Technologies: Next.js, Tailwind CSS*

- Developed a personal portfolio with modern dark theme UI
- Showcased projects, skills, and contact form
- Optimized for performance and responsiveness
- Deployed using Vercel

**Seat Reservation System** *(MERN Stack - Full-stack Web Application)*

- Designed and implemented a seat reservation system for interns using React.js, Node.js, and MongoDB
- Developed backend APIs to handle seat availability, booking, and cancellations
- Implemented user authentication and secure booking flow using JWT
- Created dynamic frontend UI with real-time seat selection and availability updates
- Tested APIs with Postman and ensured data integrity in MongoDB
- Followed Agile methodologies and collaborated on code management using GitHub

---

## EXPERIENCE

**Full-Stack Developer Intern**
Sri Lanka Telecom (SLT), Head Office – Colombo
Sep 2025 – Mar 2026

- Contributed to the development of a Doctor App (eChanneling System), focusing on Appointment Management and Schedule Handling backend modules using Node.js, Express.js, TypeScript, and PostgreSQL.
- Designed and implemented secure Authentication and Authorization using JWT, improving login flow and access control for both users and administrators.
- Collaborated with cross-functional teams on database design, API development, and system integration using Prisma ORM and Postman for testing.
- Assisted in deployment processes, version control (Git) improvements following Agile methodologies.

---

## EDUCATION

**Higher National Diploma in Information Technology**
SLIATE - Sri Lanka Institute of Advanced Technological Education
[2023 - 2026]

---

## CERTIFICATIONS

- Version Controlling 101 course at Codeku Devops Academy
- Web Design for Beginner CODL - University of Moratuwa

---

## ADDITIONAL INFORMATION

- Strong problem-solving and analytical skills
- Good communication and teamwork abilities
- Fast learner with adaptability to new technologies
