SUMMARY

Passionate and detail-oriented Full Stack Developer currently pursuing a Higher National Diploma in Information Technology (HNDIT) at SLIATE, Gampaha. Skilled in building scalable web and mobile applications using modern technologies including MERN stack, Node.js, and Flutter. Experienced in backend development, REST API design, and database management through real-world internship experience. Strong problem-solving abilities and committed to delivering efficient, user-focused software solutions in collaborative development environments.

PROFESSIONAL EXPERIENCE

Intern – Full-Stack Developer
Sri Lanka Telecom (SLT) – Head Office, Colombo
Sep 16, 2025 – Mar 16, 2026

- Contributing to Doctor App – eChanneling System development, focusing on the Appointment Management & Schedule Handling backend module using Node.js, Express, TypeScipt & PostgreSQL.
- Developed and integrated a secure Authentication & Authorization system using JWT, improving login flow and access control for users and admins.
- Collaborated with the development team for database structuring, API integration, and testing through Postman and Prisma ORM.
- Supporting enhancements in deployment, version control, and CI/CD following Agile methodologies.

INTERNSHIP PROJECTS

Doctor App – eChanneling Platform (Node, TypeScript, PostgreSQL)

- Built backend modules for appointment booking, schedule management, and authentication.
- Implemented API routing, database schemas, role-based access, and error handling.

Seat Reservation System (MERN Stack)

- Designed & developed a full-stack seat booking system using React.js, Node.js, MongoDB, and Express.js.
- Created UI components, REST APIs, and real-time seat availability logic.

Task Manager Mobile Application (Flutter)

- Created a Flutter-based task management app with dynamic UI and state management for daily task tracking.
- Focused on user-friendly UI/UX with responsive layouts.

EDUCATION

- Higher National Diploma in Information Technology (HNDIT) 2023 – 2025
  Sri Lanka Institute of Advanced Technological Education - Gampaha

ACADEMIC PROJECTS

DJ Client Booking Web Application (Full-Stack | MERN)

- Developed a comprehensive system featuring role-based login (Client/Admin) with robust JWT authentication.
- Implemented a user-friendly booking form, real-time calendar availability, dynamic dashboard, and integrated Stripe/PayHere for secure payments.
- Enabled real-time notifications, data export to PDF/CSV, and an advanced admin analytics dashboard.
- Technologies: React, Node.js, MongoDB, Express, Tailwind CSS

Cafe Website (Frontend Project)

- Designed and built a fully responsive static website for a cafe, showcasing strong frontend development skills.
- Key pages include Home, Menu, Gallery, About and Contact, all meticulously styled with CSS.
- Technologies used: HTML, CSS, JavaScript

Inventory Management System for Tyer Shop (Standalone Desktop Application)

- Built a Java-based desktop system to manage a tyer shop's inventory and orders.
- Features include CRUD operations, supplier/category tracking, real-time stock updates, and PDF reporting.
- Designed a clean, user-friendly GUI and used a local MySQL database for reliable data storage.

TECHNICAL SKILLS

- Languages: JavaScript, JAVA, C#, PHP
- Web Development : HTML, CSS, JavaScript, TypeScript, Express.js, Node.js, Tailwind CSS
- Database: MongoDB, MySQL, PostgreSQL
- Framework: MERN, Flutter
- Tools & Platforms: Postman, VS Code , Figma, GitHub,

CERTIFICATION

- Version Controlling 101 course at Codeku Devops Academy
- Web Design for Beginner CODL - University of Moratuwa
